

Celebrating Christmas with Style

Local interior design studio welcomes the holidays with festive designs and events

► **JEANNINE WEISBROD**, owner of the Diva Design Studio, ushers in the holidays every year with a closed-door decorating event. She and her design staff shutter the studio for at least three days in mid-October to rearrange furniture and accessories and to hang garland, decorate trees and set up seasonal displays throughout the store.

◀ **TINY LIGHTS** glint from among the branches of five towering Christmas trees placed around the interior design studio. Trimmed with bright ornaments and festive garlands, the twelve-foot trees stand as centerpieces, each following a specific theme, from rustic to elegant, and showcasing detailed craftwork such as glass icicles and jeweled flowers.

► **EXQUISITELY CRAFTED**, gold-painted angels and richly robed, full-bearded St. Nick's highlight Jeannine's commitment to providing distinctive furnishings and decorations to customers and clients. She visits markets throughout the year and purchases items that will compliment the furniture, bedding, lighting, flooring, and custom window coverings that are available at Diva studio.

► **BARN ANIMALS**, devoted parents, and three Eastern kings, with the fragrant gifts of frankincense and myrrh, surround a wooden manger that holds the swaddled Christ child. Several of these delicately crafted and embellished nativity scenes tuck among

the holiday decorations—atop desks, along sideboards, and on accent tables—throughout the studio.

► **TRADITIONAL CHRISTMAS TREE ORNAMENTS** captivate with intricate beadwork, festive sequins, and glitter appliqué. Jeannine Weisbrod, along with her staff of designers, begins the selection of holiday decorations early in the year. Every January, Jeannine uses current decorating trends and client wish lists to guide the studio's shopping for the upcoming holiday season.

◀ **A BLEND OF GOLD AND CRIMSON**, back-dropped by winery green, helps to create a dramatic centerpiece, complimented by elegant place-settings along a festooned dining table. In addition to displays such as this one in the Diva studio, Jeannine and her staff of designers offer customized seasonal designs for homes and offices during the holidays.
